Motivated Computer Science Senior seeking a hands-on Internship in Software Development

- ❖ Ready to apply Computer Science knowledge to the work place in a team-focused environment
- ❖ Demonstrated exceptional work ethic and a willingness to learn from others
- ❖ Effective communicator; team-driven; results-oriented
- ❖ Military veteran who understands the importance of confidentiality

Education

Fordham University   *Expected Graduation: December 2018*
B.S. in Computer Science

- ▪ Major GPA: 3.83 / 4.00   Cumulative GPA: 3.68 / 4.00
- ▪ Inducted into the Honor Society Alpha Sigma Lambda – Top 5% of Veteran and Adult students
- ▪ Courses: Computer Algorithms, Discrete Mathematics II, Theory of Computation and Languages, Data Networks

Technologies and Skills

- Proficient in C++, **Python** and Java; Focus on Object-Oriented design
- Extensive experience with the command line, **Git** version control, and packet managers (PIP, NPM)
- Significant **Ruby on Rails** experience; developing a **full-stack** website with **Bootstrap** and **MVC** design
- Knowledgeable in **WordPress** and web languages such as **HTML**, **CSS**, **JavaScript,** and web frameworks
- Familiar with back-end server-side PHP, **MySQL**, **Postgres** and the basics of **relational databases**
- Understands the importance of **Agile** methodology in software development

Significant Projects

- **Python Web Scraper with SQL Database:** With Python 3 and MySQL, wrote a web scraping program, collecting data from a video game review website. Made use of HTTP request and parser modules, stored relevant data into a self-made database.
- **Interactive Java GUI:** Developed a JavaFX set program featuring error detection, buttons, and displays.
- **Infix to Postfix Calculator:** Using advanced C++ techniques, wrote a Calculator program which took in a regular Infix expression, converts to Postfix notation, then calculated the result. Heavy use of OOP and error handling.
- **Web Blog:** Created a blog application using Ruby on Rails with a User signup and Articles relational database.

Professional Experience

United States Army   *November 2012 - May 2016*
Logistical Supply Specialist

- ▪ Analyzed the specific needs of over 2200 Soldiers to meet every supply quota in a timely manner
- ▪ Recipient of over 10 awards and medals including: Army Commendation Medal and Army Good Conduct Medal

Ammunition Specialist, 210th Field Artillery Brigade, Camp Casey, South Korea   *August 2013 - August 2014*

- ▪ Managed and distributed over 400 tons of ammunition to various units throughout the area of responsibility
- ▪ Supported multiple unit operations in the field, providing mission essential supplies to over 800 battalion soldiers

Aviation Support Specialist, 1-501st Attack & Recon Battalion, Al-Asad, Iraq   *December 2014 - August 2015*

- ▪ Organized the successful operation of a joint air field, working with a combination of Marines, Air Force, and Army
- ▪ Supervised six soldiers in the assembly and operation of over 40 safe and reliable resupply points for aircraft
